

BP's Poisonous Profits

Thousand miles
COP27 squanderers,
Petro profiteering,
Iraqi oil fields
Profusely fuming
Hideous carcinogens,
Plaguing Gen Alphas
(Under twelves).

Pernicious gas flaring:
Methane
Black carbon
Naphthalene,
Benzene
Burdened,
World Health Organisation
Safe level,
Zero!

Rumaila in Basra
Southern Iraq,
World's worst
Gas flaring offender,
British Petroleum (BP),
Childhood leukaemia
(Acute lymphoblastic),
Rifeness!

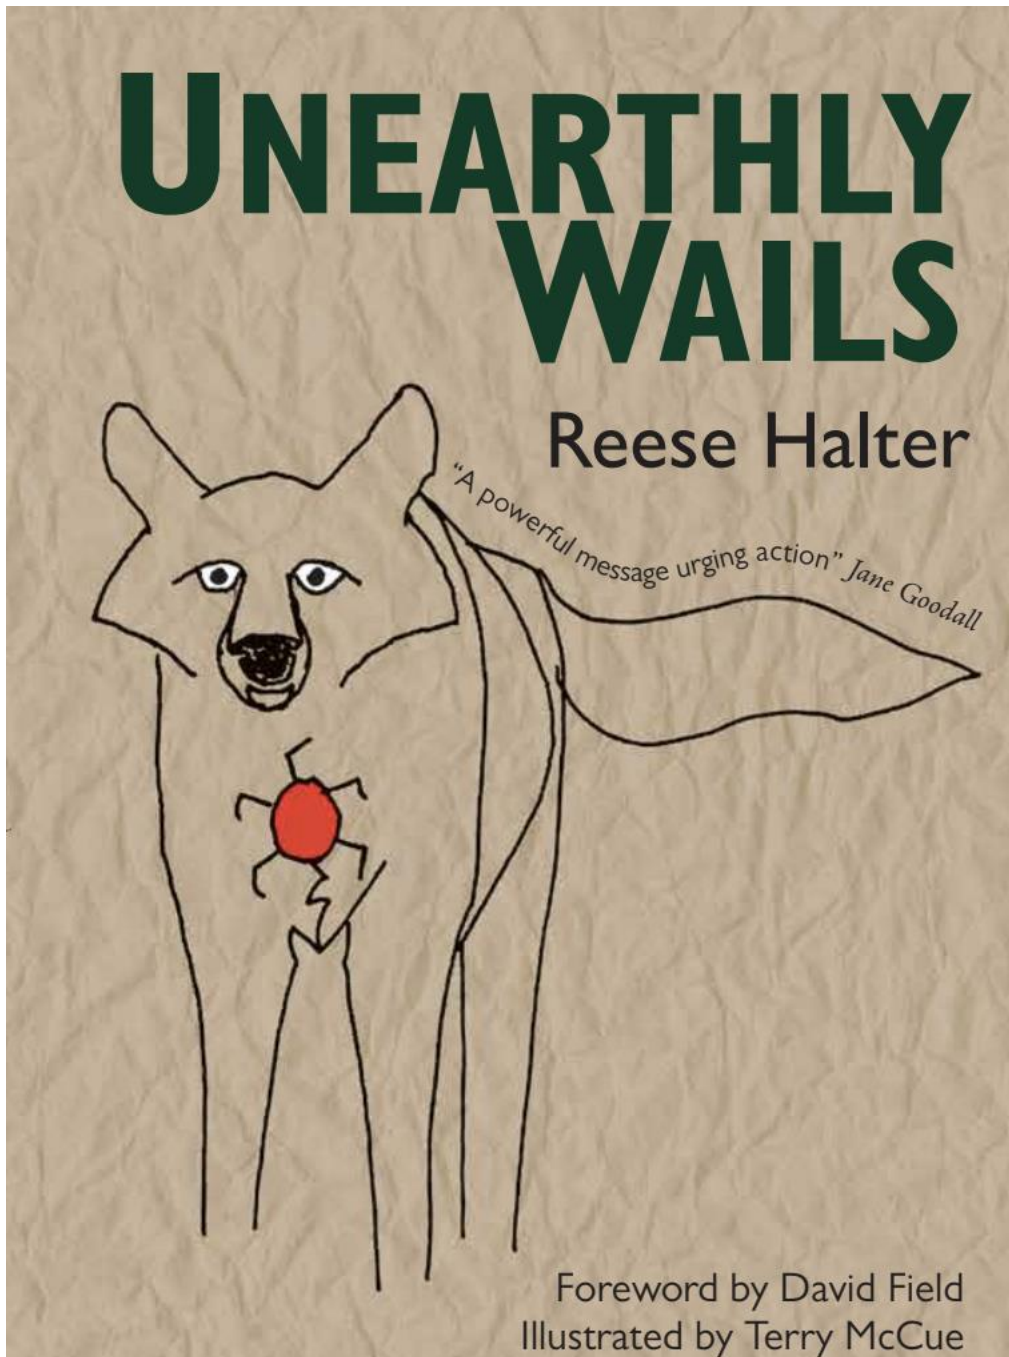

Children playing
Football
Running inside,
Billowing greasy clouds
Suffocating smoke
Sky raining oil!

Black Gold World
Fascist checkpoints,
Iraqi petroleum police
Russian mercs,
Oil companies
Payroll'd,
Big shareholder money
Bigger corporate poison
Biggest kid cancers!

Zilch pollution control,
Paltry \$5 million price tag,
Gen Alpha air filters
Rejected,
Fraction of BP's
Record quarterly
Looted
Mother Earth blood-money,
\$8 billion.
Sleazy lauded
Hell on Earth-makers!
