

## **Fabulous Forest Fungi**

Friendly fungi,  
Entangling,  
Enchanting,  
Tree root talkers!  
Enhancing ectomycorrhizas,  
Admirably absorbing  
Combusted  
Fossil fuel wood pellet palm oil  
carbon dioxide.

Symbiosis they say,  
Fungi bringing tree roots  
Water carbon nutrients.  
Trees reciprocate,  
Sumptuous banqueters,  
Sun made sugar sustainers!

Ectomycorrhizal forestallers,  
Unhurried rotters,  
Soil carbon retainers.  
Excellent elfin ones.  
Flawless grownup forests,  
Nature's climate solutions,  
Defend or die!
