

Buzzless Canadian Bees

Dear Ontario beekeepers,
We met twenty ten.
Colony collapse disorder,
Neonic warning rejected.
"American nerve poisons,
Canadians scot-free."
News on wire dire,
Ninety per cent honeybees slain.

Aw our buzzless sistren,
Seven point five billion workers,
Murdered!
One hundred fifty thousand hives,
Silent barren poisoned.
Native bees hoverflies too,
Unsung heroes missing in action.
Twenty-four neonic parts per billion,
Alzheimer's Parkinson's bee diseases,
Full strength instantaneously,
Minds lost shuddered deaths.
Terrorsome!

Blueberries peaches apples,
Grapes pears plums,
Cherries apricots nectarines,
Raspberries strawberries melons.
Twenty twenty-two Ontario,
\$1 billion bee revenue forgone.
Beekeepers farmers distraught,
Mortgage payments due,
Unsuccessful pollination attained.
Rebuilding hives complicated,
Queens colonists' fullness of time.
Many hunger pangs!

The game is up Bayer Syngenta others.
Ban atrocious nerve poisons!
Embrace Mother's solutions.
Natural smart biopesticides,
Sporulating mushroom repelling technology,
Fungi confer pest resistance.
Solution onto soils amongst crops,
Plants unattractive onslaught undone.
Coexistence on fields.
Birds bats insect buffets!
Preserving abundant biodiversity,
Foremost Mother's survival.
Save the bees,
Please!
